*Contemporary and bold design*

# Exterior

combining strength with a modern touch, delivering a striking presence on the road and during adventures

With sharp lines and modern touches that reflect a bold and confident character, the prominent front grille and LED headlights give the vehicle a distinctive identity

It is not just a car, but an expression of a lifestyle that combines freedom, strength, and distinction in every detail

## Headlights

The headlights are designed to combine power and modern technology. They rely on advanced LED lighting with daytime running lines, enhancing visibility and adding a modern touch.

## Front grille

The front grille embodies the design philosophy advanced, combining boldness and technology. It has been developed to serve both performance and efficiency simultaneously.

## Exterior mirrors with logo welcome lighting

The mirrors feature integrated welcome lighting that adds a touch of luxury when approaching the vehicle, illuminating the ground elegantly, reflecting attention to the finest details.

## 19-inch two-tone aluminum wheels

The wheels reflect an advanced design philosophy, focusing on showcasing strength in an elegant and innovative style. Making them capable of withstanding various road conditions.

## LED tail lights

The tail lights add a distinctive character with fine details that integrate seamlessly, giving a balanced appearance that combines strength and innovation.

# Interior

Elegant and luxurious interior design, with rear seats that can be folded flat, making them suitable for sleeping and long journeys. The seats are designed to provide enhanced comfort with generous space. The driver's seat includes a memory function with three preset positions, as well as seat ventilation and heating. A multimedia display has also been integrated, allowing access to various functions without the need for physical buttons.

10.25-inch LCD instrument cluster

The instrument cluster features a digital design advanced, reflecting the spirit of modern technology. Providing a clear and easy-to-read display for all essential driving information.

14.6-inch infotainment display

The display supports advanced smartphone integration allowing the driver to enjoy music, calls, and favorite applications with fast response, enhancing ease of use while driving.

Panoramic sunroof

extending with a wide design that allows natural light to enter filling the cabin with a bright and comfortable atmosphere enhancing the passenger experience and giving every journey a more enjoyable and open feel.

Fully foldable seats with multiple seat functions

The seats can be fully folded flat to transform the cabin into a comfortable space ideal for relaxation or even sleeping during long journeys.

5 leather seats

Equipped with five seats upholstered in high-quality leather providing a seating experience that combines comfort and luxury.
