

BAIC X55

EXCEED THE EXTRAORDINARY

EXTERIOR

The X55 II has a sleek, futuristic design that captures the imagination. Its soft curves and flowing lines create a sense of movement even when the car is stationary. The X55 II's color transition is smooth, with shades blending into each other in a smooth and harmonious way that gives depth to its exterior.

The X55 car has a very low drag coefficient of 0.32, meaning it is designed to minimize air resistance and enhance speed and fuel efficiency, with a front grille that also has a low drag coefficient.

Crystal Star Design Grille

Sleek front grille and modern design with a crystal-like appearance made of rust-resistant and strong mechanical properties chrome material.

Pop-up Door Handles

The X55 features an automatic pop-up feature for the door handles, which gives a unique and modern experience to the user, as well as reduces the lateral air drag coefficient, which improves fuel consumption.

Split Spoiler

The Split spoiler of the X55 car is designed in a sporty and unique design that makes the car look more attractive and provides efficient performance.

Panoramic Sunroof

The X55 panoramic sunroof offers an automatic sunroof closure function during rainy weather while experiencing a well-lit interior.

Automatic Tailgate

The X55's tailgate features hands-free door opening technology, allowing you to easily enter the car using automatic door unlocking technology when the key is near the car for up to 5 seconds.

BAIC X55

INTERIOR

Step inside the new Baic X55 and you'll be greeted with a showcase of cutting-edge technology and luxurious materials, providing a level of comfort and sophistication fit for royalty. Take a closer look at all the incredible features that the BAIC X55 has to offer.

Multi-function steering wheel with 4-way adjustment

Central control screen "10 inch

Wireless Charging

Ambient lights control

7DCT Transmission

PERFORMANCE

The X55 II combines turbocharged power, intelligent driving modes, and a smooth 7-speed dual-clutch transmission to deliver responsive performance, enhanced efficiency, and confident driving in every journey.

1.5T Engine

The X55's engine is equipped with a Core 1.5 T Turbocharger (VGT) engine with an impressive thermal efficiency of 39.2%, ensuring optimal performance and fuel economy and providing a dynamic driving experience.

4 Different Driving Modes

It has four driving modes, ECO for improved fuel efficiency, Sport for powerful performance and quick acceleration, Comfort for driving comfort, and Smart to provide a balance between efficiency and dynamism based on driver behavior and conditions.

Auto Parkig Assist

The X55 automatically helps steer the vehicle into parking spaces by detecting suitable spots and guiding the car during parking, making parking easier, safer, and more convenient.

360° panoramic image

The BAIC X55 360° Panoramic Image system utilizes four high-definition surround-view cameras strategically placed around the vehicle.

SAFETY

A STRONG BODY STRUCTURE

Exceptional Torsional Rigidity: Engineered with a body rigidity of up to 21,872 Nm/deg to withstand extreme forces.

Advanced Crash Protection: Significantly reduces structural deformation during a collision by absorbing and redirecting impact energy away from the cabin.

Enhanced Driving Dynamics: The ultra-rigid chassis not only elevates occupant safety but also improves handling stability and reduces cabin noise, vibration, and harshness (NVH).

ACC adaptive cruise control

Intelligent cruise control can be operated during long-distance driving, convenient assistance in low-speed traffic congestion

AEB automatic emergency braking

The autonomous emergency braking system allows vehicles, passengers and bicycles to be identified and sends a signal to the vehicle's braking system to intervene if necessary.

Multiple Sensors and Assist Driving Functions

1 Brand new parking domain controller,
1 Brand new parking domain controller
5 Driving and monitoring cameras, 12
Ultrasonic radars
